

CAMO Signs Agreement With Global Consultants, Inc., One of United States Fastest Growing Companies

Woodbridge, NJ – July 19, 2002 --- CAMO, the company that helps smart people get smarter™, has signed an agreement with Global Consultants, Inc., one of the fastest growing IT consulting companies in North America.

The contract has an initial value of \$1 million and has the potential to increase significantly over the span of the next 18 months.

Inc. magazine, a well-known US business publication, ranks global Consultants as the 44th fastest growing company in the United States. The company employs 1200 consultants and is a direct vendor to several Fortune 500 companies. Global Consulting is one of only seven firms that IBM contracts for IT consulting. Global Consulting specialize in providing turnkey software solutions, staff provisioning, e-commerce applications and migration solutions.

The new contract demonstrates how financial services institutions, technology companies, and a host of other product and service providers value CAMO's consulting expertise.

In addition, CAMO's software group continues to grow. With CAMO's core Market Sizzle technology, customers can quickly launch predictive analytic solutions that help companies develop better products in a fraction of the time. Companies may also use Market Sizzle components to optimize pricing, predict best product features and create smart networks that generate market intelligence on a real-time basis. Current software clients include Unilever, Inmarsat and Land O'Lakes, the United States' largest dairy product company.

“We continue to receive recognition for our commitment to attracting the highest quality people in the IT industry,” said Bjorn Skare, CAMO's chief executive officer. “Companies trust us to provide high quality people who get the job done. In combination with our software solutions, CAMO is providing its customers with a distinct competitive advantage in human and intellectual capital.”

Forward-Looking Statements

This press release contains statements that are forward-looking statements as defined within the Private Securities Litigation Reform Act of 1995. These include statements regarding market opportunity, benefits for customers, product availability and engineering and design activities. Such forward-looking statements are subject to risks and uncertainties which could cause actual results to differ materially from the statements made, including: 1) in regard to revenues, gross margins and earnings uncertainties associated with market acceptance of and demand for the Company's products, impact of competitive products and pricing and dependence on third party suppliers; and 2) in regard to new product introductions, uncertainties associated with the development of technology and intellectual property rights. CAMO does not undertake any obligation to publicly release the result of any revisions to forward-looking statements that may be made to reflect events or circumstances after the date hereof or to reflect the occurrence of unanticipated events.
